Delhi University

05/2012 - 06/2015   *Delhi, Bharat*

WEB DEV SKILLS

HTML   CSS   Sass   JavaScript

ReactJS   React Native   Bootstrap

Git   Framer Motion   Python

PERSONAL PROJECTS

An LMS Website (mathsmadeasy.com)
- Built a website on WordPress for students where they can purchase courses and start learning by watching video lectures.

Other than this I like making creative things for fun that can be seen on my website. ⧉

ACHIEVEMENTS

Not just a UI Developer (01/2021 - Present)
I started working as a UI Developer but when needed I handled a bit of front-end as well and then I started using real time data and developed some of the front-end with back-end (Java) system integration using Axios.

Management Skills (07/2022 - Present)
I manage the Content team as well, comprising 10 people. I am responsible for gathering requirements about the document from the authorized personnel and then supervising the team to deliver the required documents on time.
